

PRESS RELEASE

Films with Friends Film Series in North Beach

San Francisco - The **Telegraph Hill Dwellers**, in conjunction with the film collective **Those Guys**, is proud to introduce “**Films with Friends**.” Please join us in **North Beach** for a free neighborhood-wide celebration of cinema that takes place the third Wednesday of the month, starting on June 21st and then each subsequent third Wednesday of the month at local venues in North Beach.

The first event will be at 7:30 PM at the **Savoy Tivoli**, showing “**Head Trip, Doggie Diner Dogheads Trip Across USA**”. Other showings on June 21st will include “**Urban Landscapes**” short films at **Kerouac Alley**. There will also be films for children (or who are just young at heart) with 15 “**Felix The Cat**” films at **Piazza Pellegrini**.

Who are **Those Guys**? Co-Founder of the collective and Chair of the **Telegraph Hill Dweller Arts and Culture Committee**, **Nanci Gaglio** describes the collective as “a group of filmmakers, artists, and projection enthusiasts who want to celebrate **North Beach and Telegraph Hill’s** rich and significant film tradition and history. Our group is diverse, and we aim to show films for all audiences. Our mission is to get people off their couches to watch and talk about films together in the community.”

“**North Beach** is the perfect place to launch **Films with Friends**. Our community has a rich cinematic history and many cinephiles. It makes sense to bring everyone together each third Wednesday of the month” says Nanci.

About the **Telegraph Hill Dwellers**

Founded in 1954, the **Telegraph Hill Dwellers** is one of the oldest, largest, and most widely respected neighborhood organizations in the nation. For over six decades, the **Telegraph Hill Dwellers** have led the way to celebrate, beautify, and protect **San Francisco’s** most unique and historic neighborhoods. Without the hard work and support of **Telegraph Hill Dweller** volunteers and members, **Telegraph Hill, North Beach, and the Northeast Waterfront** would vastly differ from the beloved and special places they are today. <https://www.thd.org/>
